

Project Proposal

codywakeford.com

Overview

This document outlines my understanding of your project requirements to ensure we are aligned on the scope, objectives, and deliverables. It serves as a reference point to keep expectations clear and ensure a smooth development process.

Scope of work

This project aims to design and develop a responsive website for the client. The website will include an e-commerce platform with product listing, cart functionality, and payment gateway integration.

Key Deliverables

1. Home Page
2. About Page

As part of my standard development process, your website will be fully mobile-responsive, rigorously tested, and optimized to ensure all features function as intended.

Timeline & Milestones

As outlined in the quote, the estimated time for completion is 21 days. I will ensure the website is fully delivered and handed over by March 2nd 2025.

Payment Structure

To ensure a smooth workflow and mutual commitment throughout the project, payments will be structured in three stages:

- Initial Payment (33%) – Due upfront to secure the project and begin research, planning, and initial design concepts.
- Design Milestone (33%) – Paid once the design phase is completed and approved, before moving into full development.
- Final Payment (34%) – Due upon project completion, after final testing and deployment.
