## My Service Garuntee

I provide free bug fixes for 30 days after project completion to ensure everything runs smoothly.

Before anything is released to the public all code is end-to-end tested using industry best practices, this ensures your website works seamlessly and without error on all devices.

All my websites are 100% mobile responsive.

All my clients get a google analytics hooked up to their website for free.

Every website I build comes with an independent Google Lighthouse performance report as a testament to my commitment to quality.
